

# **Official Petition**

"Petition to Hoffa Demanding Replacement of National Carhaul Negotiating Committee".

We the undersigned Members of the International Brotherhood of Teamsters Carhaul division demand James P. Hoffa remove the current National Carhaul Negotiating Committee members and replace them with negotiators with the ability to recognize the needs of the membership. Your head negotiator, Fred Zuckerman, on several occasions has announced it is his job to make sure the Carhaul Employers stay in business and has shown total disregard and disrespect towards the Membership. We demand he and the likes of him be removed and replaced with negotiators that are Union membership friendly and not Company owned.
